Digital life made easy
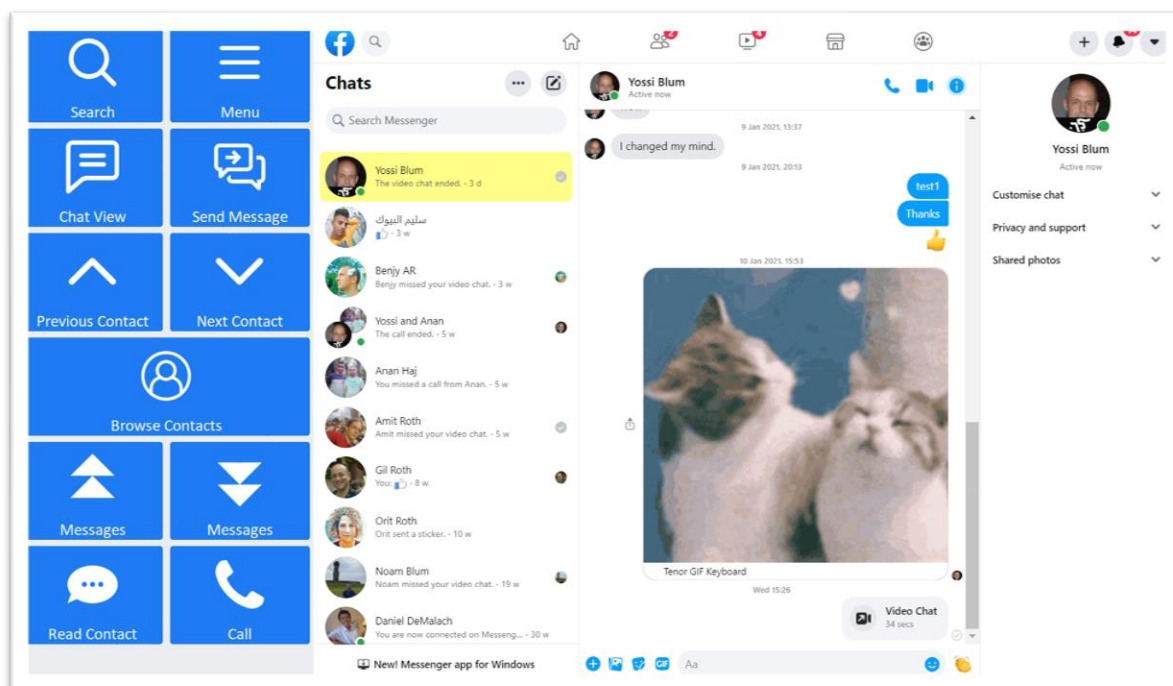

Join-In for Communicator 5
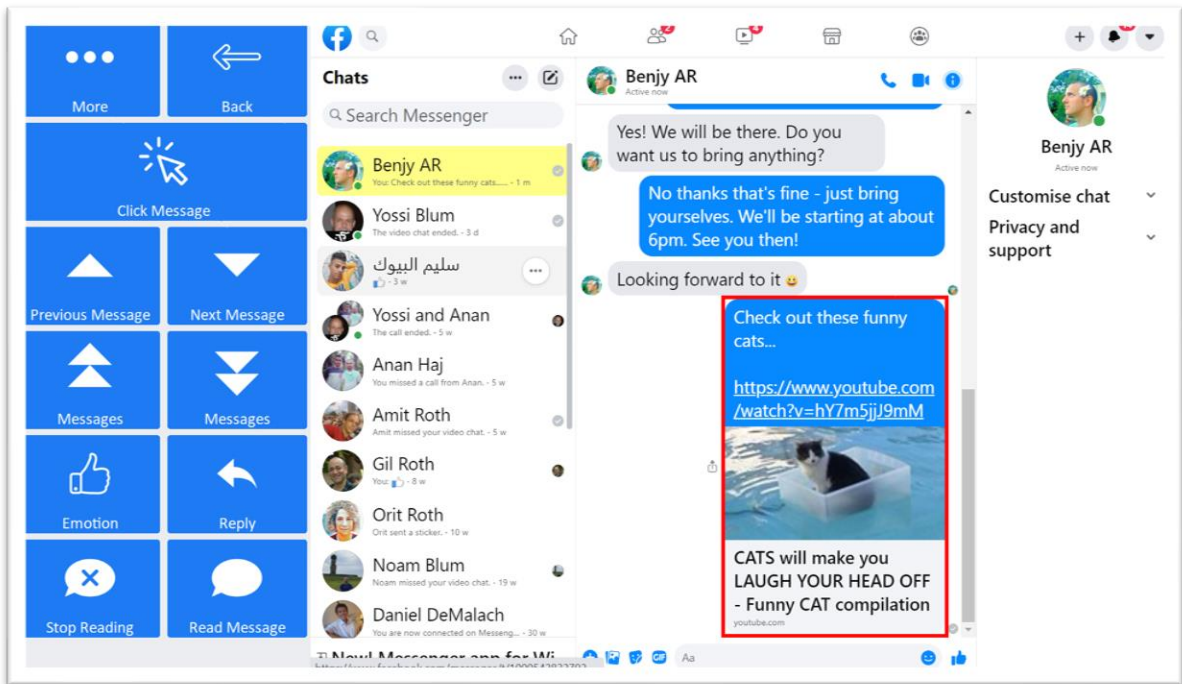

Accessible
Facebook Messenger

Getting Started

- <u>Requirements</u> – to use Accessible Facebook you need a Facebook account. Make sure you have your login and password available.

- <u>**Login**</u> – After selecting ***Accessible Facebook Messenger*** from your Home Page, follow the sequence – ***Login and Info*** => ***Log In*** => ***Email or Phone*** => enter your Facebook account email or phone number => ***Password*** => enter your Facebook account password => ***Log In.***

- You are now logged into your Facebook account. Select ***Continue to Messenger*** to start using the app.

2

Home

- **Menu** – go to Messenger menu.

- **Previous Contact / Next Contact** – the yellow background highlight shows which one of your chats is currently selected. Use these buttons to navigate up and down in the chats panel on the left side of the browser window.

- **Messages Up / Down** – the right side of the browser window shows the message history for the currently selected chat. Use these buttons to scroll up and down.

- **Chat View** – the **Messages** buttons only allow you to scroll the message panel. Click **Chat View** to access more features and ways to interact with messages.

- **Send Message** – send a message to the selected chat.

- **Browse Contacts** – open a popup table to find a contact you are looking for.

- **Read Contact** – read the name of the selected contact aloud.

- **Call** – initiate an audio or video call with the selected contact.

- **Search** – search for new contacts to start a chat.

3

Chat View

- **Back** – leave chat view and return to **Home** view.

- **Previous / Next Message** – the red highlight border shows the currently selected message. Use these buttons to move up and down to other messages.

- **Click Message** – if the selected message contains a video or a link, this button will allow you to activate it.

- **Messages** up and down – scroll several messages up or down.

- **Emotion** – reply with an emotion to the selected message.

- **Reply** – reply to the selected message.

- **Read Message** – read the selected message aloud.

- **More** – here you can **Delete Message**, scroll to the **Last Message**, or **Translate Message**.

5

Browse Contacts

- Clicking **Browse Contacts** in opens a popup table to display all your chats, in order of how recently they have been active. You will be redirected to a menu toolbar to help you choose one based on your accessibility settings.

- The buttons you see depend on the **Selection Method** applied in the **Join-In Settings** app. Consult these training cards for full guidance on how to change your accessibility settings.
